EXPERIENCE

Web application developer

Self

Dynamic Website for a Restaurant

- Technology used: Python, DJANGO, HTML, CSS
- Description: The website included features such as menu display, online reservation system, user authentication, and interactive contact forms
Link: <https://github.com/ANUBHAV0112/Restaurant-Website.git>

Diamond Price Prediction

- Technology used: ML Python, NumPy, Pandas, Scikit-learn, Matplotlib.pyplot
- Description: The Diamond Price Prediction project aims to predict the price of diamonds based on key attributes like carat, cut, color, and clarity using machine learning techniques.
- Link: <https://github.com/ANUBHAV0112/Diamond-Price-Prediction.git>

EduCommerce Project

- Technology used: React.js, CSS, JS
- Description: Developed an e-commerce platform using React.js aimed at providing a user-friendly interface for online course purchasing, inspired by Udemy's model
Link: <https://educommerce.netlify.app/>

Website for a School

- Technology used: React.js, CSS, JS
- Description: Developed a user-friendly website for a school, enabling easy access to information for students, teachers, and administrators
Link: <https://github.com/ANUBHAV0112/School-website.git>

Web application to upload files securely

- Technology used: Python, Django
- Description: Developed a web application using Django framework for uploading files securely
Link: <https://github.com/ANUBHAV0112/django-file-upload.git>

Java-based ATM simulation program

- Developed a Java-based ATM simulation program with an Apache NetBeans-designed interface, featuring functionalities like account balance inquiries, cash withdrawals, and funds transfers to mimic real ATM operations

SUMMARY

WEB DEVELOPER PYTHON | DJANGO | ML

I am a BSc Computer Science graduate with expertise in Python, React JS, Machine Learning, Java, CSS, HTML, Django, and Flask.

Beyond technical proficiency, my approach includes curiosity, adaptability, and collaborative problem-solving. I am seeking a role where my technical skills and enthusiasm can contribute to the success of a dynamic team.
